About Megathon

The Megathon Metaverse is an eco friendly VR city comprising of millions of spaces for your own personalized real estate which can be versed as 'Your Game'.

In Megathon, players also known as Dwellers can connect with friends, experience different cultures and lifestyles, create tokenized items, start businesses, venture into real estate and explore the city.

Megathon provides a fair chance to every resident in the city. Thanks to MEGAN.

Our Goals

VIRTUAL EXPERIENCE

Every excellent project starts with a plan. Make your own plans in Megathon. In Megathon city, gamers will enjoy extra ordinary experience in accessing the city.

BREAK THE CITY BOUNDARY

The Megathon bridge in the virtual experience with here and now. The business policy Nebula allows you to duplicate digital identical twins in and take in Megathon city exactly how it seem in real life.

CLONE YOURSELF

Relish the hope to experience 'diversified lives' in the intervening time in Megathon, be at various places, undertake different projects, in any way you pick.

MEGATHON PLAN

The Megathon City project was set up with ideal initiatives that will boomerang the universe.

Project Description

Megathon city is a virtual city created and developed to clone and enhance the very existence of man on the real world.

Future Plan

Megathon project is heading to become the first virtual city to be built with the latest AI which will make it possible for dwellers to perform everyday task within the city.

Megathon Product

MEGAN is a tokenized asset created for the full operation of the Megathon City. With \$MEGAN all dwellers can rent, purchase or lease a space ie within Megathon city.

Target Market

The target market is the entire universe. Which means it is so simple to operate in Megathon even without a single idea of what the metaverse is all about.
